Welcome to Rivals for Catan™!

The game you are holding in your hands is the new deluxe edition of Rivals for Catan. The core design for this game was first published in Germany in 1996 as the Catan Card Game™ then revised in 2010 as The Rivals for Catan™. After many successful years, this ultimate 2-player CATAN® experience truly deserves a deluxe treatment.

The rules of the game are designed to introduce you gradually to its unique system. First, you are introduced to your principality and the basic game mechanisms by playing the short Introductory Game. Once you are comfortable with the core concepts of the game, you may add the individual “Theme Games.” Each Theme Game introduces more cards and game mechanisms—step by step.

Rivals for Catan takes you on a virtual tour through the history of Catan. The Introductory Game, The First Catanians, recreates the early days of the settlement of Catan. The three Theme Games recreate a different era of Catan’s past—The Era of Gold, The Era of Turmoil, and The Era of Progress. You can find more information about the history of Catan and its thematic realization in at catan.com.

Once you have played all three of the Theme Games, you will be familiar with all of the cards and rules in the game. You are now ready for the ultimate Rivals experience: The Duel of the Princes! This scenario uses cards from all of the Theme Sets at once. Master that, and you are truly the greatest monarch in Catan!

Rivals for Catan Deluxe includes:

- 189 cards:
  - 1 Basic Set with 94 cards
  - 1 The Era of Gold Theme Set with 27 cards
  - 1 The Era of Turmoil Theme Set with 28 cards
  - 1 The Era of Progress Theme Set with 31 cards
  - 9 Rivals for Catan Deluxe special promo cards
- 4 card trays to keep your draw stacks organized
- 2 plastic tokens: 1 hero token, 1 trade token
- 2 dice: 1 production die (the die with numbers), 1 event die (the die with symbols)
- 1 rules book: You are reading it now
Initial Steps...

First you are going to be guided through the game setup.

Prepare the Trays

Put 3 of the card trays end-to-end and place them in the center of the table between you and your opponent. It should stretch left to right like a wall between the players.

A Little Bit of Sorting

Sort all of the cards using their backs and form them into stacks. The cards with the red backs are called the Basic Set. These red cards are used in the Introductory Game as well as in each of the 3 Theme Games.

The Theme Game cards have orange, purple, and green backs. Put them back in the box for now.

Card Tray Setup

Organize and put the cards into the tray follows:

- Place the 3 stacks containing roads, settlements, and cities face up in the card tray as shown. Since the cards in each stack are identical, you don’t need to shuffle them.
- Shuffle the region card stack and place it face down between the settlement card stack and the city card stack.
- Shuffle the 36 Basic Set cards (red backs). Divide these cards into 4 stacks of 9 cards each and place them next to the city card stack. These stacks are called “draw stacks.”
- Turn the event cards face up. Put the cards that do not have the red Basic Set symbol in the box. Keep the Yule card separate. Shuffle the remaining event cards face down.
- Place 3 cards from the shuffled event cards face-down to start the event deck. Place the Yule card face down on top of these 3 cards, then place the remaining event cards—also face down—on top of the Yule card. Place the entire stack next to the other card stacks.
Your Principality

You and your opponent should each choose one of the two 9-card stacks with the shield on the back (red shield or blue shield). These are your “starting cards.” You and your opponent use these cards to build your respective principalities.

First, you need to get to know your principality. To start the game, it consists of 6 different regions and 2 settlements connected by a road. Place your cards aligned towards you as shown below. **Hint:** The name of each region card is shown in the bottom left corner. During setup, make sure that you orient all of your region cards so the text is in the bottom left as you face your cards.

Refer to the examples below (or from the back of the rules book) to set up your principality.

**Red Player’s Setup**

**Red player’s principality faces card tray “wall” and blue player**

**Blue Player’s Setup**

**Blue player’s principality faces card tray “wall” and red player**

Regions

As the prince or princess, you have a steady income. You receive this income in the form of resources: lumber, wool, gold, brick, ore, and grain. Each resource is produced by one of your regions: forest, pasture, gold field, hills, mountains, or fields.

How much you have of a certain resource is indicated by the orientation of the corresponding region. The edge of the region card closest to you is crucial in this context. At the beginning of the game, each region—except for the center-top gold field—is aligned so that its edge with 1 resource symbol is closest to you. This means that you have exactly 1 of each of these resources stored and available for use. You do not start with gold, so your gold field card starts with its “no resource” edge closest to you.

During the game, you receive resources and spend them. When you receive 1 resource, rotate the card 90° counter-clockwise so that its edge with one more resource is closest to you. When you spend 1 resource, rotate the card 90° clockwise. You can thus store between 0 and 3 resources in a region. If you already have 3 resources stored in a region and receive another resource there, you won’t be able to store it—the additional resource is lost.
Settlements

Settlements are the centerpieces of your principality. Each settlement is worth 1 victory point (represented by an icon of a gold circle with the red flag). You need victory points to win. A settlement also provides 2 empty building sites for expansion cards (buildings or units), one above and one below the settlement. You may also upgrade settlements to cities—you’ll learn how to do this later.

Roads

Your 2 starting settlements are connected by a road. In order to build an additional settlement and extend your principality, you must first place a road adjacent to your left or right settlement (see Building site for road in the example on the bottom of page 5). Roads allow you to build additional settlements. That is their only function.

The illustration on the back of this rules book shows the finished game set up for an introductory game. You and your opponent are facing each other—you each have your respective prinicipalities aligned towards yourselves. Between the principalities are the trays that hold the stacks of roads, settlements, regions, and cities as well as the draw stacks and the event card stack.

The Game Begins

Each player rolls the production die. If you are the high roller, you are the starting player. Draw the 3 top cards from one of the 4 draw stacks. Then your opponent draws the 3 top cards from a different draw stack. These cards form your respective hands. You should always conceal the cards in your hand from your opponent.

Game Turn

You and your opponent alternate taking turns. When taking your turn, you are the active player. The turn sequence is always executed as follows:

1. Rolling the Dice: Roll both dice and resolve the results.
2. Taking Your Action Phase: In any order and as often as desired: play cards and trade resources.
3. Replenishing Your Hand: Check the number of cards in your hand and, if need be, draw or discard 1 or more cards (discarded cards are removed from the game).
4. Exchanging a Card from Your Hand: If desired be, exchange a card from your hand.

1. Rolling the Dice

Roll both dice (production die and event die) at the beginning of your turn.

First, let’s have a look at the production die—it has the numbers 1 through 6. The production die result determines what new resources each player receives. Each region whose number matches the production die result receives 1 resource—that is, the region is rotated 90º counterclockwise (see the example below). The 6 regions in your starting principally each have a different number from 1-6. When you get more regions, numbers on multiple regions will match the production die result. You receive 1 resource in each region matching any production die roll.

Example of Resource Production

On her first turn, player A rolls a “6”. Her fields region has the number 6, so player A receives 1 grain. She indicates this by rotating the fields region 90º so that its side showing 2 grain symbols is now aligned towards her. Player B also receives 1 resource in his region marked with a “6” in his case, it is the mountains region. He thus receives 1 ore and indicates this in the same fashion as player A.
The event die result determines which random event occurs. This will be explained later (see page 8—Event Die). Now let’s examine the other parts of the turn sequence.

2. Taking Your Action Phase

An action is playing a card or trading. The number of actions you may take is only limited by your available cards and resources.

a) Playing the Cards in Your Hand

During your action phase, you may play cards from your hand. At the bottom of each card is either a yellow or a green text box.

A card with a green text field is a “settlement/city expansion.” In order to place it in your principality, you must pay the resources (building costs) indicated on the card. A card with a yellow text box and an “A” in the upper left corner is an “action card”—it costs nothing to play.

Settlement/City Expansions

A settlement/city expansion must always be placed on an empty building site adjacent to a settlement/city. Once placed, it provides permanent advantages for the rest of the game. There are two different types of settlement/city expansions: buildings and units. Units are further subdivided into heroes and trade ships.

To add an expansion from your hand to a settlement or city, place the card on an empty building site and pay the building costs indicated on the card. From then on, you may use the building or unit along with any associated effect.

Please note: Some cards, like Abbey, are marked “(1x)”. This means that you may only have 1 of these cards in your principality.
Action Cards
Action cards are always played from your hand and have immediate effect. To play an action card, read the text on the card to your opponent and resolve the action. Then place the card face up on a discard pile used by both players. This removes the card from play.

b) Playing the Center Cards
There are 4 stacks of cards between the two players: roads, settlements, cities, and regions (associated with the settlements). The roads, settlements, and cities are called center cards, because these cards lie between the two players and both players have direct access to them. The active player can build any available road or settlement center card directly by paying the building costs indicated on that card’s back. A city center card requires that its building costs be paid and that a settlement be available to upgrade.

Building a Road
You need roads to extend your principality. There must always be exactly 1 road between 2 settlements. So if you want to build a new settlement, you first have to build a road.

Building a Settlement
A settlement may only be built adjacent to the open end of a road (i.e., its open left or right edge). You get a number of advantages from new settlements:
- Each settlement is worth 1 victory point.
- Each settlement provides 2 new building sites (1 above and 1 below the settlement).

Building a City
Settlements can be upgraded to cities. When you build a city, you pay the building costs and place the city on top of an existing settlement. For the rest of the game, the settlement card remains underneath the city card. You get advantages from a city:
- Each city is worth 2 victory points. (The victory point of the settlement covered by the city is not counted).
- Each city provides 2 additional building sites. Now you can place 2 settlement/city expansions above and 2 below the city.
Important: Some expansion cards affect adjacent regions on the left and right. Positioning an expansion card either above or below a settlement/city may thus be important. However, it doesn’t matter which of the two neighboring building sites you occupy: the two regions on the left and right are equally adjacent to both building sites (see the white arrows in the Building a City example on page 6).

c) Trading Resources

Sometimes you may have too many of one resource and not enough of another. In such cases, you may exchange your resources for other resources.

Regular Exchange Rate

You can always trade 3 for 1. Pay 3 resources of the same type and receive any 1 different resource of your choice. The resources paid can be taken from various regions of the same type.

Example: Regular Exchange Rate

You trade 3:1 – pay 3 ore (from 2 regions) and take 1 wool in return.

Improved Exchange Rate

If you have a trade ship in your principality, your trade rate improves to 2 for 1. Pay 2 resources of the resource type indicated by the trade ship and receive any 1 different resource of your choice. The resources paid can be taken from various regions of the same type.

Example: Improved Exchange Rate

You have an Ore Ship in your principality. You pay 2 ore and take 1 wool.

3. Replenishing Your Hand

When you no longer want to (or can’t) take another action, you can end your turn. But first check to see if you have as many cards in your hand as you are allowed to hold.

- At the end of your turn, you may have no more than 3 cards in your hand. However, you may hold 1 additional card for each card with a progress point (book symbol) you have in your principality.

- If you have fewer cards in your hand than you are allowed to hold, draw cards until you have the number of cards allowed. For this purpose, randomly draw cards from the tops of the draw stacks.

- If you have more cards in your hand than you are allowed to hold, you must discard cards until you have the number of cards allowed. Place discarded cards under your choice of draw stack(s).

Cards drawn to replenish your hand can’t be used immediately—you must wait until your next turn.

4. Exchanging a Card from Your Hand

Once you have as many cards in your hand as you are allowed to hold, you may exchange 1 card from your hand for a card from one of the draw stacks. First place 1 card of your choice under any of the draw stacks. Then you may either:

- Take a random card. Draw the top card from a draw stack of your choice, OR

- Select a specific card. Pay any 2 resources of your choice. Choose a draw stack and look at all of its cards. Then take 1 card of your choice from that stack.

Please note: You may not change the order of the cards in the draw stack!

Cards you exchange can’t be used immediately. You have to wait until your next turn to use them.
1. Strength Advantage and Trade Advantage

Some cards have axe or scale symbols. Each axe symbol is worth 1 strength point and each scale symbol is worth 1 commerce point.

**Strength Advantage**

You have the strength advantage if your principality has 3 or more strength points and you have more strength points than your opponent. Whenever you have the strength advantage, take the token that depicts an axe. This “hero token” is worth 1 victory point. Place it on one of your settlements/cities.

If you have the hero token and your strength points fall below 3 or below the number of strength points owned by your opponent, remove the hero token from your principality. Your opponent takes it if she has 3 or more strength points. Otherwise, set the hero token aside.

**Trade Advantage**

You have the trade advantage if your principality has 3 or more commerce points and you have more commerce points than your opponent. Whenever you have the trade advantage, take the token that depicts a scale. This “trade token” is worth 1 victory point. Place it on one of your settlements/cities.

If you have the trade token and your commerce points fall below 3 or below the number of commerce points owned by your opponent, remove the trade token from your principality. Your opponent takes it if they have 3 or more commerce points. Otherwise, set the trade token aside.

2. Skill Points and Progress Points

**Skill points:** Skill points are depicted on heroes. The symbol of skill is a harp inside a round green icon. Each skill point may give you an advantage when the Celebration event is rolled.

**Progress points:** On some buildings, progress points are depicted. The symbol of progress is a book inside a round purple icon. Each progress point allows you to hold 1 additional card in your hand.

3. Event Die

At the beginning of each turn, roll the event die in addition to the production die. There are 5 different symbols on this die, each of them having a different effect.

Four of these symbols are black. When someone rolls a black symbol, an event occurs (see below) or the players may receive additional resources.

When someone rolls the red symbol, the brigands strike and both players may face negative effects, depending on the number of resources they have stored.

The color of the symbol rolled determines whether the result of the production die roll or the result of the symbol die roll is resolved first:

- If the symbol is the red club, a Brigand Attack takes place. **Resolve it before** resolving the result of the production die roll.

**Brigand Attack:** Any players that have more than 7 resources lose all of their gold and wool resources (rotate those regions to show 0 resources).
If the symbol on the event die is a **black symbol**, **resolve it after** resolving the result of the production die roll. You and your opponent each receive your resource income. Afterwards, resolve the result of the event die roll.

**Trade:** If one of the players has the trade advantage, that player receives 1 resource of his/her choice from the opponent.

**Celebration:** If one of the players has the most skill points, that player alone receives 1 resource of his/her choice. Otherwise, each player receives 1 resource of their choice.

**Plentiful Harvest:** Each player receives 1 resource of their choice.

**Event Card:** The player who rolled the dice draws the topmost event card and reads the event aloud. Any players affected by the event (which can be none, one, or both players) resolve the event. Then return the card to the bottom of the event card stack.

If you draw the **Yule** card, prepare a new event card stack. Then draw and resolve a new event card.

**To Prepare a New Event Deck** – (Set up the event deck exactly as you did to start the game.) Keep the **Yule** card separate. Shuffle the remaining event cards. Place 3 cards from the shuffled event cards face down. Place the **Yule** card face down on top of these 3 cards. Then place the remaining event cards on top of the **Yule** card.

**The Card Index that starts on page 13 provides details on the use and effects of each card. Each card is listed according to the set it belongs to: the Basic Set or one of the Theme Sets. When questions arise, check this index for answers.**

---

**GOAL & END GAME**

The **Introductory Game** ends when a player has **7 (or more) victory points** at the end of their turn and wins. Each settlement is worth 1 victory point and each city 2 victory points. In addition, having the hero token is worth 1 victory point and having the trade token is worth 1 victory point.

**Congratulations!** You have mastered the **Introductory Game “The First Catansians.”** Now you know all the basic rules of **Rivals for Catan.** If you feel comfortable using the Introductory Game rules and cards, you may start playing the Theme Games. Each provides a longer game and a more challenging and varied experience. The Theme Games not only introduce new cards but they also provide entirely new card types and building possibilities.
All the rules you already learned also apply in the Theme Games. However, the Theme Games add some new rules that are described below. You may want to play the Introductory Game a few more times in order to get more comfortable with the gameplay and the *First Catanians* rules. Once you feel ready for the Theme Games, begin with the general additional rules that always apply when playing the Theme Sets. The special rules for the three individual sets will follow afterwards.

**Recommendations:** Play the Theme Games in the order in which the rules are presented.
- The Era of Gold introduces you to new card types and some simple requirements for action cards.
- The Era of Turmoil brings some aggressive cards into play. You can use them to harass your opponent.
- The Era of Progress is more peaceful. The focus is on the constructive development of both principalities.
- Once you have mastered the Theme Games, you can combine various elements of the individual Theme Game strategies in *The Duel of the Princes*.

### General Rules

**Preparation**

In all of the Theme trays, you will need to place all 4 card trays end-to-end.

1. **Event Card Stack**

   Always use the Basic Set event cards and the event cards from the appropriate Theme Set. First separate out the *Yule* card. Then shuffle the remaining event cards from the Basic Set and the particular Theme Set you have chosen. Take 3 cards from the shuffled cards and place the *Yule* card face down on top of them. Finally, place the remaining cards on top of the *Yule* card.

2. **Face-up Expansion Card Stack**

   In each Theme Set, there are expansion cards that must be accessible to both players. Separate these cards out and place them as a face-up expansion card stack next to the draw stacks. These cards are never part of your hand. Instead, you may look through this stack, select the card you want to build, and pay the building costs as usual. Then place the card on an empty building site in your principality.

   **Note:** Each card in the face-up stack is a “1x” (see *Settlement/City Expansions* on page 5).

3. **Preparing the Draw Stacks**

   Shuffle the Basic Set cards whose backs show the Basic Set symbol. Organize these cards into 3 Basic Set draw stacks of 12 cards each. Separately shuffle the appropriate Theme Set cards not already in stacks. Organize these cards into 2 Theme Set draw stacks—each with an equal number of cards.

4. **Choosing the Starting Cards**

   You don’t draw your starting cards randomly from a stack like you’ve done in the Introductory Game. Instead, beginning with the starting player, each player chooses a Basic Set draw stack and selects 3 cards for a starting hand. You may not change the order of the cards in the draw stack.

**Example “Draw Stacks”:** In the Era of Gold, the 2 Theme Set draw stacks and the face-up expansion card stack containing the Merchant Guild and the Moneylender are placed next to the 3 Basic Set draw stacks in the card tray.

**Example “Choosing Starting Cards”:** The player selects the cards *Storehouse*, *Parish Hall*, and *Merchant Caravan* from a Basic Set draw stack.
5. Rearranging Regions

After building your principality and taking your starting cards, you may rearrange your 6 regions.

Example: If a Weaver’s Shop is among the cards in your hand, it makes sense to place the pasture region at the periphery. This allows you to place a second pasture region (selected perhaps by means of a Scout) when building the next settlement. If you place the Weaver’s Shop in between, the production of both pastures doubles.

6. Discard Pile

Only the face-up top card of the discard pile is visible. You are not allowed to look through the other cards of the pile.

Other Rules Additions

1. City Expansions

“City expansion” is a new card type in the Theme Sets. Each of these cards has a red text box. You may only place a city expansion card on a building site adjacent to a city. Each city has 4 building sites (2 above, 2 below).

2. Region Expansions

“Region expansion” is another new card type. Each of these cards has a brown text box. You may only place a region expansion above or below a region—never on a building site for a settlement/city.

3. Removal of Units and Buildings

As the game progresses, you may find that you no longer have empty building sites in your principality. To address this, during your action phase you may remove one of your buildings or units in your principality. This costs you nothing. Place the removed card on the discard pile. If you remove a building you took from the face-up expansion card stack, do not place it on the discard pile but return it to that expansion card stack.

4. Requirements

The Theme Sets introduce cards that have special requirements that must be met before you can play them. The requirements may vary significantly—such as requiring the trade advantage or strength advantage or requiring that another building must already be in your principality. You may use a card only if you and your opponent can meet all requirements indicated in its text. For example, you are not allowed to play the Archer card if your opponent does not have a unit with at least 1 strength point and, therefore, cannot remove a unit.

Example “Requirements:” Both Trade Master and Staple House require the Merchant Guild. If you want to play the Trade Master action card or build a Staple House, you must have placed a Merchant Guild in your principality.

5. Placing Cards Under the Right Stack

When you place a card under a draw stack, you must choose a stack whose cards have the same back as the discarded card. A stack consists of any number of cards. If a stack is totally depleted, you may still place the card at the former stack location and thereby reestablish the stack with 1 card. During the entire course of a game, the number of possibilities to discard a card remains the same.

End of the Game

You play each Theme Game until a player reaches 12 victory points (or more) during their turn. This player wins the game, no matter how many victory points their opponent has at that moment. In addition to victory points counted in the Introductory Game, each victory point symbol on your city expansions is also worth 1 victory point.

Note: If you already have 12 victory points on your turn before you roll the dice, the game ends immediately and you win.

To summarize: Each settlement is worth 1 victory point and each city 2 victory points. In addition, having the hero token is worth 1 victory point and having the trade token is worth 1 victory point. Finally, each victory point symbol on your city expansions is worth 1 victory point.
SPECIAL RULES

1. The Era of Gold
These two Theme Set draw stacks each contain 11 cards. The face-up expansion card stack consists of the 2 Merchant Guild cards. The set contains the region expansion Gold Cache.

Tip: This set intensifies the struggle for the trade advantage. Gold resources also become more important—among other things due to another Toll Bridge, the Mint, and the Gold Cache. If you use trade ships to build your trading empire, beware of Pirate Ships.

2. The Era of Turmoil
These two Theme Set draw stacks each contain 11 cards. The face-up expansion card stack consists of the 2 Hedge Tavern cards.

Tip: Traitors, Archers, and Arsonists make things harder for the players. When you have the strength advantage, you will find that you have more opportunities to harass your opponent. You also should always try to have enough gold to protect your units from Riots.

3. The Era of Progress
These two Theme Set draw stacks each contain 12 cards. The face-up expansion card stack consists of the 2 University cards.

Tip: University, Three-Field System, Mineral Mining, and Building Crane can help you reap the fruits of progress. Unfortunately, the Plague doesn’t spare Catan. Happy is the player who protects her principality from major losses with Bath Houses and Pharmacies.

THE DUEL OF THE PRINCES

Once you have played all 3 Theme Games and are familiar with all of the cards, you are ready to play The Duel of the Princes. In this version of the game, you use cards from all 3 Theme Sets and the Basic Set cards. No new rules are added, except for a few changes to the way that the draw stacks and event cards are prepared.

Goal of the Game
You play The Duel of the Princes until a player reaches 13 victory points on their turn and wins.

The Draw Stacks
Prepare the Basic Set cards as in the Theme Game: 3 Basic Set draw stacks of 12 cards each. Some of the Theme Set cards are marked with half moon symbols. You do not use these cards. Put them back in the box. Shuffle the remaining cards in each Theme Set and place the resulting 3 Theme Set draw stacks next to the 3 Basic Set draw stacks. So the Theme Set draw stacks contain only cards not marked with half moons. There are no face-up expansion card stacks in this version of the game.

Draw Stacks in The Duel of the Princes:
Remove all cards marked with half moons. They are “out of play.”

Place the 3 reduced Theme Set draw stacks next to the 3 Basic Set draw stacks.

The Event Card Stack
Separate all of the event cards marked with half moons. The remaining event cards are all used in The Duel of the Princes: Yule, Invention, Year of Plenty, Riots, Traveling Merchant, and Plague.

Now, randomly select 6 of the 15 event cards marked with half moons and all of the event cards not marked with a half moon form the event card stack.

Event Cards in The Duel of the Princes:
6 randomly selected event cards marked with half moons and all of the event cards not marked with a half moon form the event card stack.

Add the 6 randomly selected “half moon” event cards to the event cards without half moons. Set the Yule card aside and shuffle the rest facedown. Take 3 of the shuffled cards and place the Yule card face down on top of them. Finally, place the remaining cards on top of the Yule card.
BASIC SET

There are 94 Cards in the Basic Set

**Center Cards** (49 cards)

- **Regions** (24): 4x each of fields, mountains, gold field, hills, forest, and pasture; 1 card of each type has a red shield back, 1 card of each type has a blue shield back, 2 cards of each type have region backs.

- **Settlements** (9): 9x settlements; 5 cards have settlement backs, 2 cards have red shield backs, 2 cards have blue shield backs.

- **Cities** (7): 7x cities; all 7 cards have city backs.

- **Roads** (9): 9x roads; 7 cards have road backs, 1 card has a red shield back, 1 card has a blue shield back.

Center cards cannot be removed, and your opponent cannot attack them.

**Basic Cards** (36 cards)

- **Action Cards** (9 cards)

  - **Brigitta the Wise Woman** (2):
    Play this card before rolling the dice. First choose the result of the production die roll and turn the die so that the chosen side is face up. Then roll the event die and resolve both results in the usual order. You may not play Brigitta retroactively in order to change an inconvenient production die roll result.

  - **Goldsmith** (2):
    You may take the gold from different gold fields and/or from the Gold Cache.

  - **Merchant Caravan** (2):
    You may exchange 2 resources of the same type or 2 different resources. The resources may come from the same or different regions. You may also exchange them for 2 identical resources if it seems reasonable to you. However, you must have at least 2 resources to play the Merchant Caravan.

- **Relocation** (1):
  This card can help you to use production boosters (see the next page) more effectively.

- **Scout** (2):
  You may use this card only when you are building a new settlement. At that point, you may play the Scout and take 2 regions of your choice from the stack of region cards. Play them as the new regions for the new settlement.

**Settlement/City Expansions** (27 cards)

**Buildings**

- **Abbey** (2):
  You may only have 1 Abbey in your principality. The Abbey has a progress point that allows you to have one more card in your hand. At the end of your turn, replenish your hand accordingly. If you lose the Abbey, at the end of your next turn you must meet your reduced card limit, discarding if necessary.

- **Marketplace** (2):
  You may build only 1 Marketplace in your principality.

  **Example regarding its function:** Your opponent (blue shield) has built the first settlement of the game and receives a fields region with a “3” and the gold field region with a “3”. They now have 2 regions (with the die symbol “3”) more than you. If a later production die roll result is a “3”, you get 1 additional resource that your opponent also has received via this roll: 1 grain, 1 gold, or 1 lumber. If your opponent received a resource via the production die roll but couldn’t accommodate it in the corresponding region because the region was already full, you may still choose this resource.

- **Parish Hall** (2):
  You may only have 1 Parish Hall in your principality. (The parenthesis “(from one of your own draw stacks)” refers to the Tournament Game.)
**Lumber Camp (1); Iron Foundry (1); Grain Mill (1); Brick Factory (1);**

**Lumber Ship (1); Gold Ship (1); Brick Ship (1); Grain Ship (1);**

Use a trade ship several times per turn if you have enough of the appropriate resource.

The resources you trade may be taken from different regions of a single specified type at a better rate.

If you hit my left cheek, don’t even think.

**Toll Bridge (1):**

You must be able to store any gold you receive on your gold fields or a Gold Cache. If you only have storage space for 1 or 0 gold, the excess is lost.

**Production booster cards (5):**

**Brick Factory (1); Grain Mill (1); Iron Foundry (1); Lumber Camp (1); Weaver’s Shop (1);**

Production boosters have an effect only if you receive the corresponding resource due to a production die roll at the beginning of a turn. If the affected region has no storage space for the additional resource, the resource is lost.

**Hint:** In the heat of the moment, you may sometimes forget to take the additional resources you should receive from your production boosters’ effects. Placing a coin, or other marker, on your region(s) adjacent to each production booster makes a good reminder.

**UNITS**

**Large Trade Ship (1):**

With the Large Trade Ship, you can trade the resources produced in the regions to the left or right. You may not combine resources from the right and left regions; you either trade resources from the left region or resources from the right region. However, you may first trade resources from the left region and then resources from the right region.

**“Common” heroes (6):**

**Austin (1); Candamir (1); Inga (1); Harald (1); Osmund (1); Siglind (1):**

“Common” heroes only differ in building costs, skill points, and strength points.

**“Common” trade ships (6):**

**Brick Ship (1); Grain Ship (1); Lumber Ship (1); Gold Ship (1); Ore Ship (1); Wool Ship (1):**

With a trade ship, you can trade resources of a single specified type at a better rate. The resources you trade may be taken from different regions that are storing resources of the appropriate type. You may use a trade ship several times per turn if you have enough of the appropriate resource.

**Feud (1):**

If the affected player has only 3 or fewer buildings, they are automatically affected. The affected player chooses which one they want to remove. (The parenthesis “(under a matching draw stack of their own)” refers to the Tournament Game.)

**Fraternal Feuds (1):**

If you have the strength advantage, your opponent gives you all her cards. You choose two of them and place them under draw stacks whose cards have matching backs. That is, you either place them both at the bottom of the same stack or at the bottom of 2 different draw stacks. (The parenthesis “(under matching draw stacks of their own)” refers to the Tournament Game.) All your opponent knows is under which draw stack(s) you placed the cards. Give the remaining cards back to your opponent. Your opponent may not replenish their hand until the end of their next turn.

**Invention (1):**

Each player determines which resources to receive and among which regions to distribute them.

**Trade Ships Race (1):**

If no player has built a trade ship, no one receives the resource.

**Traveling Merchant (2):**

You also may use any gold you have received via the current production die roll.

**Year of Plenty (2):**

If various Abbeys and/or Storehouses are adjacent to a single region, that region gets one resource for each of these adjacent buildings—provided that the region has sufficient storage space.

**Yule (1):**

If the Yule event card is revealed, prepare a new event card stack; then draw a new event card.

**To Prepare an Event Deck**—(Use the standard method.) Keep the Yule card separate. Shuffle the remaining event cards. Place 3 cards from the shuffled event cards face down. Place the Yule card face down on top of these 3 cards, then place the remaining event cards on top of the Yule card.

**Toll Bridge**

**Production booster cards**

**UNITS**

**Large Trade Ship**

**“Common” heroes**

**“Common” trade ships**

**Event Cards** (9 cards)

**Feud:**

If the affected player has only 3 or fewer buildings, they are automatically affected. The affected player chooses which one they want to remove. (The parenthesis “(under a matching draw stack of their own)” refers to the Tournament Game.)

**Fraternal Feuds:**

If you have the strength advantage, your opponent gives you all her cards. You choose two of them and place them under draw stacks whose cards have matching backs. That is, you either place them both at the bottom of the same stack or at the bottom of 2 different draw stacks. (The parenthesis “(under matching draw stacks of their own)” refers to the Tournament Game.) All your opponent knows is under which draw stack(s) you placed the cards. Give the remaining cards back to your opponent. Your opponent may not replenish their hand until the end of their next turn.

**Invention:**

Each player determines which resources to receive and among which regions to distribute them.

**Trade Ships Race:**

If no player has built a trade ship, no one receives the resource.

**Traveling Merchant:**

You also may use any gold you have received via the current production die roll.

**Year of Plenty:**

If various Abbeys and/or Storehouses are adjacent to a single region, that region gets one resource for each of these adjacent buildings—provided that the region has sufficient storage space.

**Yule:**

If the Yule event card is revealed, prepare a new event card stack; then draw a new event card.

**To Prepare an Event Deck**—(Use the standard method.) Keep the Yule card separate. Shuffle the remaining event cards. Place 3 cards from the shuffled event cards face down. Place the Yule card face down on top of these 3 cards, then place the remaining event cards on top of the Yule card.
There are 27 cards in The Era of Gold.

**ACTION CARDS**

**Brigands (1):**
If you don’t have the strength advantage, you can’t play the *Brigands*. The opponent must give you the requested resources. The opponent decides which regions they want to take these resources from.

**Goldsmith (1):**
See Basic Set.

**Gudrun, Terror of the Seas (1):**
If you don’t have a *Pirate Ship* and/or your opponent has no gold in her regions, you can’t play *Gudrun*. Your opponent must give you the gold you requested: at the most, all the gold she owns—and no more than you can store in your gold fields (and in your *Gold Cache* if applicable). Your opponent decides which regions she wants to take the gold from.

**Merchant (2):**
If you have neither a city nor 3 commerce points, you can’t play the *Merchant*. If you play the *Merchant*, choose 1 or 2 resources your opponent must give you. The opponent chooses the regions they want to take the resources from. Afterwards, you must give them any 1 resource of your choice in return; this may be a resource you just received from them. If your opponent doesn’t have any resources at all, you can’t play the *Merchant*.

**Reiner the Herald (1):**
When a *Celebration* event is resolved, you normally wouldn’t receive a resource when your opponent has more skill points than you. You always get at least 1 resource with this card.

**Trade Master (2):**
If you don’t have a *Merchant Guild*, you can’t play the *Trade Master*. If you play the *Trade Master*, choose 1 or 2 resources that your opponent must give you. The opponent chooses the regions to take the resources from. If your opponent doesn’t have any resources at all, you can’t play the *Trade Master*.

**Gold Cache (1):**
Place the *Gold Cache* above or below any region of your choice. Gold in the *Gold Cache* is safe from the *Brigand Attack* event. You may freely use the gold stored in the *Gold Cache* for actions such as building and trading. If your opponent demands gold from you by playing an action card such as the *Merchant* or *Brigands*, the gold in your *Gold Cache* is also affected.

**Settlement/City Expansions**

**Harbor (1):**
You may build the *Harbor* even if you have fewer than 3 trade ships—even if you have none at all. In this case, only the commerce point counts. As soon as you have 3 trade ships, the *Harbor* is immediately worth 1 victory point. If you lose a trade ship and thus have fewer than 3 trade ships, you lose the victory point as well. The commerce point remains unaffected.

**Merchant Guild (2):**
You may only build 1 *Merchant Guild* in your principality. The *Merchant Guild* is a prerequisite for other expansion and action cards. If you remove the *Merchant Guild* from your principality, all buildings in your principality that require the *Merchant Guild* remain.
Moneylender (1):
You may build the Moneylender even if you don’t have the trade advantage. If your opponent has only 1 resource, it is the only one you get. You may only take resources you can store in your regions. If your regions have no storage space, your opponent keeps her resources.

Mint (2):
On each of your turns, you may use a Mint to trade 1 gold for 1 other resource. If you have built both Mints, you may use each Mint to trade 1 gold for 1 other resource.

Salt Silo (1):
You may build the Salt Silo even if you don’t have trade ships. In this case, only the victory point of the Salt Silo counts. If you later have a trade ship, it immediately is worth 2 commerce points, as long as the Salt Silo is in your principality.

Staple House (2):
If you don’t have a Merchant Guild, you can’t build the Staple House. First, you must pay the entire cost of the Staple House—then you receive any 2 resources of your choice. Therefore, you cannot “offset” the resources you receive after building the Staple House against its building costs.

Trading Base (1):
You may build the Trading Base even if you don’t have a Harbor or Marketplace. In this case, only the commerce point and the victory point of the Trading Base counts. If you later have the Harbor and/or the Marketplace, each is immediately worth 2 commerce points, as long as the Trading Base is in your principality.

Event Cards

Gift for the Prince (1):
You must be able to store the gold on your gold fields (or in your Gold Cache if applicable). If you receive more gold than you can store, the excess is lost.

Trade Ships Race (1): See Basic Set.

Traveling Merchant (1): See Basic Set.

Action Cards

Archer (2):
If you don’t have a Hedge Tavern, you can’t play the Archer. If your opponent doesn’t have a unit with strength points, you can’t play the Archer either. Your opponent chooses which of their units they want to remove. (The parenthesis “(under a matching draw stack of their own)” refers to the Tournament Game.)

Arsonist (2):
If you don’t have a Hedge Tavern, you can’t play the Arsonist. If your opponent doesn’t have an unprotected building, you can’t play the Arsonist either. If your opponent wants to use a defense card (Heinrich the Sentinel, Lookout Tower), you may wait for the dice roll result before determining the Arsonist’s target. (The parenthesis “(under a matching draw stack of their own)” refers to the Tournament Game.)

Brigands (1):
See “The Era of Gold.”

Sebastian the Itinerant Preacher (1):
You can play this card only at the moment an appropriate event card is revealed. You can’t play the card if you already have a Chapel that protects you against the Riots event. If you have gold, you may choose to use the gold or Sebastian to fend off the Riots.

Traitor (2):
If you don’t have a Hedge Tavern, you can’t play the Traitor. If your opponent has no cards in her hand, you can’t play the Traitor either. If applicable, you also may immediately play or build a stolen card. Your opponent draws a replacement for the stolen card at the end of her next turn. If you don’t like your opponent’s cards, you may refrain from taking one of them—however, the Traitor is placed on the discard pile anyway.

Voyage of Plunder (2):
If you don’t have the strength advantage, you can’t play Voyage of Plunder. If your opponent has no resources at all for you to accommodate in your regions, you are not allowed to play the card.
SETTLEMENT/CITY EXPANSIONS (5 cards)

BUILDINGS

Drill Ground (1):
The building costs for heroes are reduced by any 1 resource of your choice. The Drill Ground does not affect any units other than heroes.

Lookout Tower (1):
If you also have Heinrich the Sentinel in your principality, you are protected when a 1, 2, 3, 4, or 5 is rolled. If the Lookout Tower is combined with Heinrich the Sentinel, the die is still rolled only once.

UNITS

Carl Forkbeard (1):
See Basic Set: “Common” heroes.

Heinrich the Sentinel (1):
Heinrich is a hero who, in addition to his strength points, has a special effect. If you also have a Lookout Tower in your principality, you are protected when a 1, 2, 3, 4, or 5 is rolled. If Heinrich is combined with the Lookout Tower, the die is still rolled only once.

Irmgard, Keeper of the Light (1):
Irmgard is a heroine who, in addition to her skill points, has a special effect. You receive a resource whenever an action card, you receive any 1 resource of your choice. If Irmgard herself is removed, you don’t receive a resource.

Fairgrounds (1):
First, you must pay the entire cost of the Fairgrounds—then you receive any 2 resources of your choice. Therefore, you cannot “offset” the resources you receive after building the Fairgrounds against its building costs. You may build the Fairgrounds even if you don’t have the most skill points. However, in that case, you don’t receive resources.

Fire Brigade (2):
The Fire Brigade protects all buildings (settlement/city expansions and city expansions) in the city where the Fire Brigade is placed, including the Fire Brigade itself.

Hedge Tavern (2):
You may only have 1 Hedge Tavern in your principality. The Hedge Tavern is a prerequisite for many action-attack cards.

Large Festival Hall (1):
This card is worth 2 victory points.

Tithe Barn (1):
When you build the Tithe Barn, choose a resource type—either wool or grain. For each of your heroes, you receive 1 resource of the chosen type. If you have 3 heroes, you thus get either 3 wool or 3 grain. You must be able to store the received resources in your regions. If you receive more resources than you can store, the excess is lost.

ACTION CARDS (4 cards)

Feud (1):
See Basic Set.

Fraternal Feuds (1):
See Basic Set.

Riots (2):
If you have enough gold but don’t want to pay, you may voluntarily decide to remove 1 unit. Removed units must be placed under matching stacks.
(The parenthesis “(under a matching draw stack of their own)” refers to the Tournament Game.)
THE ERA OF PROGRESS

There are 28 cards in The Era of Turmoil.

EVENT CARDS (11 cards)

Benjamin the Traveling Scholar (1):
If you have Benjamin in your hand, you should make a mental note of the production roll result. If you later build a new settlement and play Benjamin, you may get resources in your new regions due to Benjamin—provided the region’s number matches the production roll result. Expansion cards (e.g., production boosters) that increase a region’s production are not applicable to the effects of Benjamin.

Brigitta the Wise Woman (1):
See Basic Set.

Doctor (2):
If you don’t have a Bath House, you can’t play the Doctor.

Guido the Ambassador (1):
If you don’t have a Town Hall, you may play Guido only if you have fewer victory points than your opponent. You may also immediately play the card you take from the discard pile—if possible. (The parenthesis “(from your opponent’s discard pile)” refers to the Tournament Game.)

Gustav the Librarian (1):
If you don’t have a Library, you may play Gustav only if you have fewer victory points than your opponent. You also may immediately play the card you take from the discard pile—if possible. (The parenthesis “(from your opponent’s discard pile)” refers to the Tournament Game.)

Mineral Mining (2):
If you don’t have a University, you can’t play the Mineral Mining. You may distribute the received ore among any mountains regions of your choice. If you don’t have enough storage space in your mountains, the excess ore is lost.

Relocation (1):
See Basic Set.

SETTLEMENT/CITY EXPANSIONS (2 cards)

Chief Cannoneer (2):
If you don’t have a University, you can’t play the Chief Cannoneer. The Chief Cannoneer is a unit but not a hero. Therefore, it is possible for you to place 2 Chief Cannoneers in your principality. Cards referring to heroes do not apply to the Chief Cannoneer. Cards referring to units do apply to the Chief Cannoneer.

Bath House (3):
The 4 regions adjacent to the city with a Bath House are protected against the Plague.

Building Crane (1):
If you don’t have a University, you can’t build the Building Crane. The cost reduction the Building Crane provides only applies to city expansions that cost more than 4 resources, and only if the Building Crane is in your principality. You choose which resource you want to save.

Library (2):
If appropriate, you may immediately play the card you chose. (The parenthesis “(from a draw stack of your own)” refers to the Tournament Game.)

Parliament (1):
If you don’t have at least 2 progress points on the expansions of your principality, you may not build the Parliament.

City Expansions (13 cards)

Three-Field System (2):
If you don’t have a University, you can’t play the Three-Field System. You may distribute the grain received among any fields regions of your choice. If you don’t have enough storage space in your fields regions, the excess grain is lost.

The 4 regions adjacent to the city with a Bath House are protected against the Plague.

For the benefit of the people and their representatives in particular.

Plague

Each region whose number you rolled at the beginning of your turn.

Chief Cannoneer

The Excess ore is lost.

Relocation

You receive up to 2 ore.

University

You can’t play the Chief Cannoneer.

Building Crane

You can’t build the Building Crane.

Library

You can’t play the Building Crane.

Parliament

You can’t build the Three-Field System.
Pharmacy (2):
If you have a Pharmacy and a Plague occurs, you receive 1 resource in any one region of your choice even if you lose no resources. If you have more than 1 Pharmacy, you receive 1 resource for each Pharmacy.

Town Hall (2):
To be able to build the Town Hall, you must have placed your Parish Hall in one of your cities. If you build the Town Hall, the Parish Hall stays beneath the Town Hall. If you have to remove the Town Hall, the Parish Hall remains. If you play the Relocation card to move the Town Hall to another city, the Parish Hall also moves. If you have built the Town Hall, you may not build a second Parish Hall, because the first Parish Hall still exists in your principality.

University (2):
If you have neither an Abbey nor a Library in your principality, you are not allowed to build the University. You may only have 1 University in your principality. The University is a prerequisite for other expansion and action cards. If you remove the University from your principality, all units and buildings in your principality requiring a University remain.

Event Cards (5 Cards)

Invention (2):
See Basic Set.

Plague (3):
Regions bordering on 2 cities lose only 1 resource. Region expansions such as the Gold Cache are not affected by the Plague.

DELUXE PROMO CARDS

These 9 cards were originally given away as promotional cards at various shows over the years. Many have never been produced in English before. Be sure to check the back of each card to see if it is playable in the Theme Set you wish to play.

Some of these cards work with Theme Games from the two Rivals for Catan Expansions, Age of Darkness™ and Age of Enlightenment™ (both available separately).

Axel the Inventor (1):
Usable in The Era of Gold. Axel is mainly used when you have a building that you no longer need, e.g. an Abbey when your stacks are empty. You can replace them with buildings that have victory points. You can also use Axel to place a building whose building costs you cannot pay. You must obey all other building rules.

Johannes the Advocate (1):
Usable with The Era of Merchant Princes. A Theme Game found in the Rivals for Catan Expansion: Age of Darkness.

Carol the Game Instructor (1):
Carol is a fun card to use when teaching the game to a new player. Don’t shuffle Carol into the draw stacks. The more experienced player places Carol in their principality during setup. Alternatively, randomly determine who starts with Carol.

Alexander and Sebastian the Bookkeepers (1):
Usable with The Era of Prosperity. A Theme Game found in the Rivals for Catan Expansion: Age of Enlightenment. If you don’t have a Prince or a Princess, you can’t play Alexander and Sebastian.

Catan Mobile (1):
Usable in the Basic Set, this fun “share-the-wealth” card was originally given away as a promo for playing in the now-defunct Catan Bus program in Germany.

Gavin the Polyglot (1):
Usable in the Basic Set, Gavin allows you to react efficiently when the production roll matches a region where you already have 3 resources.

Arnd the Fisher (1):
Usable in The Era of Gold. Arnd explores the gold-streams to find useful resources.

Heiko the Swimmer (1):
Usable in the Basic Set, Heiko allows you to build efficiently during Celebration events.

Ron the Well-Travelled Man (1):
Usable in The Era of Progress. If you don’t have a Town Hall, you can’t play Ron.
The Basic Starting Setup

Blue player's principality

Red player's principality

Event Die Results

Brigand Attack: First, any player who has more than 7 resources loses all of their gold and wool supplies. Then, both players receive resources.

Trade: First, both players receive resources. Then, if 1 of the players has the trade advantage, they receive 1 resource of her choice from their opponent.

Celebration: First, players receive resources. Then, if one player has the most skill points, that player alone receives 1 resource of their choice. Otherwise, both players receive 1 resource of their choice.

Plentiful Harvest: First, players receive resources. Then, both players receive 1 resource of her choice.

Event Card: First, both players receive resources. Then, the player who rolled the dice draws the topmost event card and reads it aloud. All players affected by the event—which can be none, one, or both players—resolve the event.
